

Dear Diamond In the Rough Members & Parents,

We would like to share tools and insights that would be beneficial to our middle & high school girls and their parents as it pertains to college and career preparation. While the vast majority of students want to go to college, most are unprepared to do so. In addition, students feel less prepared for future careers than they do for college. If a single person can change a life, just imagine what an entire community can do together to empower the lives of the next generation and help fully prepare them for their futures.

Diamond In The Rough Youth Development Program, Inc. is committed to addressing this problem and assist in preparing the future generation to succeed and reach their full potential. Our CROWNS component offers workshops, college and corporate fairs, resources and support. We desire to empower middle and high school girls and help them chart a personal path of success.

Be among the first to order your DITR ***Dare to Dream Personal Planner!*** This binder is filled with resources, worksheets, and checklists to assist in your child's pursuit for their collegiate path to success! The price for the binders are \$15 for DITR members and \$20 for Non-DITR members.

We realize college and career preparation can be an overwhelming task. We are not removing your involvement, we are extending resources and support. Please complete and sign the form and return to us via email at crowns@ditr.org or in hand when you see a staff member. Thank you for your continued support as we partner with you in helping your daughter become more confident and knowledgeable on her path to success!

Sincerely,

Christa Whitaker
